SUBJECT: INSTALLATION INSTRUCTIONS: 3840 FJ Cruiser Hi-Lift Mount

1. The installation of this kit is quite simple. In your kit you will have two large outer plates, and two smaller inner plates.
2. You can locate this kit on either side or the rear of your FJ Cruiser factory roof rack
3. On each end of where you've chosen to locate the jack, sandwich the upper and lower main tubes of the rack between a large outer plate and small inner plate. Use the supplied bolts, washers, and nuts to s
4. To install and uninstall your license plate. Hold the plate mount over ears on the mount now bolted to your bumper. Align the top two holes and secure with plastic handled knobs.

You can now quickly install and remove your license plate with ease by simply removing and installing the plastic handled knobs that hold the plate in place.
